

Design Thinking Planning Placemat

Empathy: Interview your partner to find out what they know already? What do they need? What do they want?

Define: Restate in your own words what you think the most important information from your partners interview?

Define: Join your ideas with the other group of two. Restate the most important ideas from all four interviews.

Define: RESTATE THE CHALLENGE IN YOUR OWN WORDS. Ask tons of questions: what materials can we use? What limits do you have? Time, materials, or tools?
